

Broadening Horizons

Our intent is that all students have a full understanding of how to develop themselves as well rounded citizens, maintain healthy relationships and understand how to keep themselves safe both online and in their day-to-day life. We want all students to know what options are open to them in the future and understand the routes they have in order to progress on their life journey. To achieve this, our curriculum includes: artists and cultural links, visits or a visiting artist, virtual galleries, looking at the greater awareness of artwork in the wider world, after school art clubs, links to employment opportunities including ceramicist and printmaker, and working with an artist in their own environment where appropriate We also learn about historical and contemporary artists.

Careers

We run a series of 'Careers in the Curriculum' weeks in our school. For Art, this week takes place in November. Students will learn about how to apply the skills they learn in art, to the wider world or work such as creativity, organisation and critical thinking. Students will learn about how these skills can be used in a variety of jobs. Students will also learn how to link the art subject way to life skills.

Immerse Yourself

The Student Art Guide helps students excel in a wide range of high school Art qualifications, such as GCSE. They compile new ideas, best practice and helpful learning strategies for secondary school Art students.

YEAR 10

Curriculum Intent

Art is created through inspiring and challenging lessons, equipping students with the knowledge and skills required to work creatively and independently. Students gain a firm understanding by investigating a range of art movements, artists and designers.

Students are taught how to control a range of materials through specific tasks. Recording and experimenting with ideas through drawing. Further developing some of the following media areas: painting, textile art, photography, printmaking, mixed media. We encourage our students to experiment, invent and create their own works of art.

Our curriculum empowers students to develop as artists by working on individual pieces, enabling students to become independent and creative. We aim to ensure that students value the role of art in the wider community and are confident to use the skills they develop to get involved in activities that enrich themselves and their communities.

Have your say!

Year 10 Curriculum

Refining - Skills and Knowledge in Art and Design

Areas of Study: Written Annotation, Drawing, Painting, Mixed Media, Textiles, 3D Sculpture, Print Making and Photography

Components Studied: Natural World, Woodlands and Sea Life, Working, Texture, Expression, and Weird and Wonderful

In Year 10, students will study a range of art movements ranging from classic to contemporary. We'll also look at a range of past and present artists.

We'll look at the ways in which meanings, ideas and intentions can be communicated through visual and tactile language using formal elements including colour, line, form, shape, tone and texture.

We'll also see how the characteristics, properties and effects of using different media, materials, techniques and processes can be used in relation to a student's own creative intentions.

Assessment Points

Component 1 - The portfolio / selection of further studies: for the portfolio students must include a sustained project developed in response to a subject, theme, task or brief evidencing the journey from initial engagement with a range of idea(s) to the realisation of intentions. This will give students the opportunity to demonstrate, through an extended creative response, their ability to draw together different areas of knowledge, skills and / or understanding from across their course of study. A selection of further work resulting from activities such as trials and experiments; skills-based workshops; mini and / or foundation projects.

The Art Way

The Art Way is followed in all of our lessons. It is designed to help students become young subject specialists and has two main purposes: to teach students the vital skills needed to achieve their full potential, and to demonstrate how Art relates to the wider world.

THE ART WAY

We are creative with our ideas and choices

We are open to experimenting with new materials and techniques

WE ADMIRE THE ACHIEVEMENT OF EACH OTHER & LEARN FROM THIS

We take ownership in our work

We reflect, refine & make adaptations

WE RESPECT OUR PRACTICAL ENVIRONMENT, ART TOOLS & EQUIPMENT

WE LEARN FROM ARTISTS AND WE LEARN FROM EACH OTHER

We are inquisitive (and have the opportunity to think outside of the box)

We dedicate time to plan our projects through preference, discussion & experimentation

We gain confidence in ourselves and achieve through creative learning

WE BELIEVE IN OURSELVES & ARE PREPARED TO CREATE OUR OWN PERSONAL & INDIVIDUAL ARTWORK

We express our preferences and views in a clear and constructive way
